

## PartyDAO Proposal #14

**Author:** John Palmer & Danny Aranda

Hi everyone,

The FY22 tax filing deadline is coming up very shortly, and PartyDAO's legal entity (Multisig Operations LLC) needs to finalize and file its FY22 returns. Danny Aranda and myself (John Palmer), have been handling all the logistics for this. We've been working with a consultant who was formerly head of Tax at Protocol Labs and Ripple, as well as Deloitte for tax preparation, Attivo for accounting, and Cooley for legal.

Given PartyDAO's precedent of voting to grant authority for major actions, this is a proposal to formally grant John Palmer and Danny Aranda the authority to finalize and sign tax returns, and file taxes for Multisig Operations LLC. This entails handling the treatment of our revenue, expenses, token fundraise, and other accounting details.

Vote will be open for 48 hours to ensure we are done voting before the tax deadline.
